

» NewClimate Institute contributions to COP21 in Paris

Intended Nationally Determined Contributions (INDCs)

Climate Action Tracker – Up-to-date assessment of Intended Nationally Determined Contributions. NewClimate Institute, Climate Analytics, Potsdam Institute, Ecofys.

Side event: Friday, 4 December, 11.30, UNFCCC Room 4

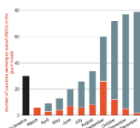

<http://climateactiontracker.org/indcs.html>

Database and policy brief – Exploring sectoral decarbonisation trends for the G-20 countries – an interactive overview of current and future sectoral trends, including over 40 sector level indicators and their relation to 2 degree and best practice.

Side event: Tuesday, 1 December, 18.30, EU pavilion, Room Luxembourg

<http://www.climateactiontracker.org> (click on data tab)

Lessons learned in the INDC preparation process – Challenges and catalytic effects.

Side event: Friday, 4 December, 12:00, Ecuador Pavilion

<http://files.newclimate.org/indc-preparation-progress/>

Report – Global emissions could move significantly towards what's needed for 2°C, if all countries would implement the policies that many already do. NewClimate Institute, PBL, IIASA.

Side events:

Tuesday, 1 December, 18.30, EU Pavilion, Room Luxembourg

<http://newclimate.org/2015/07/29/the-impact-of-good-practice-policies-on-regional-and-global-greenhouse-gas-emissions/>

Report and database – Which countries apply good practice climate policies? NewClimate Institute.

Tuesday, 8 December, 10.00, EU Pavilion

www.climatepolicydatabase.org

Report – Assessing the missed benefits of countries' national contributions.

<http://newclimate.org/2015/03/27/indc-cobenefits/>

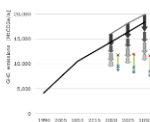

UNEP emissions gap report 2015 – NewClimate Institute undertook INDC assessment and provided technical support.

Ministerial launch: Monday, 7 December, 13.15

<http://uneplive.unep.org/theme/index/13#indcs>

A future international agreement on climate change

Report – How can the new climate agreement support robust national mitigation targets? NewClimate Institute, Wuppertal Institut, Öko-Institut, Fraunhofer ISI, Climate Analytics, Ecofys.

Side event: Monday, 7 December, 12.00, German Pavilion

<http://newclimate.org/portfolio/uba-mitigation-commitments-post-2020/>

Report – ACT 2015 suggestions for legal text for a 2015 climate change agreement. WRI, Ateneo School of Government, E3G, NewClimate Institute, Ecofys, Energeia, Institute for European Studies, PBL, Tsinghua University.

Side event: Tuesday, 1 December, 11.00, Room tbd

Climate and development

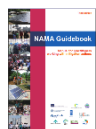

Sustainable energy production from biomass waste in Peru – Supporting the development of the NAMA proposal. Mitigation Momentum project. ECN, Ecofys, NewClimate Institute.

Side event by MAPS: How INDCs shape development, Tuesday, 8 December, time tbd, UNFCCC Room 4

Global Good Practice Analysis 2.0 – Case studies and analysis of global good practices in LEDS, NAMAs, MRV and INDCs for the Mitigation & MRV Partnership. NewClimate Institute, ECN, TERI and Libelula.

Side event: Monday, 7 December, 17.00, Morocco Pavilion; Friday, 11 December, time and room tbd

Report – Third Edition of the OECC NAMA Guidebook by various authors including NewClimate Institute.

<http://www.oecc.or.jp/english/>

Side event: Wednesday, 9 December, 13:30, Japanese Pavilion

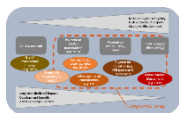

Carbon market mechanisms

Report – Analysing the status quo of CDM projects. Unique data closes major CDM knowledge gaps. NewClimate Institute, Ecofys.

<http://newclimate.org/2015/05/16/analysing-the-status-quo-of-cdm-projects/>

Side event: Wednesday, 2 December, 12.00, German Pavilion

Report – Results based financing. Potential from combining carbon market and non-market climate finance. NewClimate Institute.

<http://newclimate.org/2015/08/27/connecting-the-dots-results-based-financing-in-climate-policy/>

Side event by EU NMM project: Wednesday, 9 December, 16.30, EU Pavilion

Climate finance

Defining 2°C compatible investment criteria – NewClimate Institute, Germanwatch and the 2° Investing Initiative to explore criteria to assess the alignment of investment and financing with the 2°C limit.

<http://newclimate.org/portfolio/2c-compatible-investment-criteria/>

Side event: Tuesday, 1 December, 12.00, German Pavilion

International cooperative initiatives

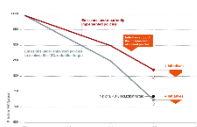

1Gt Coalition – NewClimate Institute and Yale University prepared the inaugural report of the 1Gt Coalition.

<http://www.1gigatoncoalition.org>

Ministerial launch: Monday, 7 December, 12.15, Norwegian Pavilion

Side event: Monday, 7 December, 17.45, Salle 8, Climate Generations Area

Report – How much more could Germany achieve through non-state action? Quantifying the impact of subnational and international cooperative initiatives on the future greenhouse gas emissions of Germany.

<http://newclimate.org/2015/11/25/how-much-more-could-germany-achieve-through-non-state-action/>

Side event: Mapping the state of play - Analysing non-state and subnational climate actions.

Saturday, 5 December, 15.00, Marie Curie Room, Cordelier Campus of the University Pierre et Marie Curie
